BASE MANÔMETRO INDICADOR

RTT
REINTECH COMPONENTES

The Bases Manômetro Indicador REINTECH are used to inform pression diferentials between rooms of same or different classifications, during entrance or exit of personel and materials in MAL's and PAL's.

STRUCTURE	Made in stainless steel INOX AISI 304 Gr 2290 shoving, totally solded and smooth Edges solded and smooth
ACCESSORIES	Frontal pression lecture point Counter-base of fixation in aluminium profiles Easy connection hitch 6 mm manometer
MANOMETER -50 Á 50 Pa	Precision 2% Work temperature -6,6°C to 60 °C Maximum capacity of 15 PSIG Conection 1/8" NPT 2 blung closure with screw thread Sinalizing flag adjustable Calibration certificate from supplier
OPTIONALS	Made in Stainless steel INOX AISI 316L Other indication values Eletronic manometer Multiple manometer bases Pressure point in stainless steel INOX AISI 304(room) Red/green indication flags

WORK BAND		
TYPE OF MANOMETER	INDICATION BAND	WEIGHT
Analog	-50 à 50 PA	540g

PADRONIZED DIMENSIONS:		
HEIGHT	WIDTH	DEPHT
255mm	150mm	110mm
